

OFFICIAL EYE CARE PROVIDER SELECTED FOR CSU RAM ATHLETICS

FOR IMMEDIATE RELEASE

SEPTEMBER 1, 2023

Fort Collins Family Eye Care - Dr. Jaclyn Munson, Official Eye Care Provider for CSU Athletics

Fort Collins Family Eye Care and Dr. Jaclyn Munson are pleased to accept the honor of having been selected as the Official Eye Care Provider for Colorado State University Athletics. The partnership will ensure that collegiate athletes are receiving thorough and careful eye health and vision performance evaluations.

“The culture of distinct technology and training at Fort Collins Family Eye Care is unique, and is an excellent fit for our athletic programs.” said Terry DeZeeuw CSU Senior Associate Athletic Director for Health and Performance. “Dr. Jaclyn Munson and her team of eye care professionals are passionate about preventing and managing eye related injuries and enhancing vision performance for student athletes.”

Dr. Jaclyn Munson incorporates a customized approach for athletes in the broader community of any age and level of competition to improve their game and competitive edge. With an emphasized focus on the CSU Ram Athletic community and the specific visual demands on the athletic fields, a deeper commitment to the Fort Collins community and the Colorado State University family is rooted. “Our CSU RAM Athletes are a vital part of the heartbeat of Fort Collins and represent all of us on the national stage. Our eyes should never hold us back from success, and we are here, ready to amplify, enhance, and advocate for the best in vision care for these competitive individuals.”

Dr. Jaclyn Munson recommends an initial comprehensive eye examination before beginning vision performance training. This is to make sure the athlete is seeing the best he or she can and provide the appropriate visual correction, such as contact lenses or sports eyewear, and to ensure that your ocular health is normal. After a comprehensive exam, a deeper analysis of depth perception, peripheral vision, dynamic visual acuity, and more. Based on the sport and goals in that sport, an individualized care plan will be prescribed and implemented.
